بخوانید و به سوالات زیر جواب دهید

An endangered language is a language that has very few speakers. Nowadays, many languages are losing their native speakers. When a language dies, the knowledge and culture disappears with it. A lot of endangered languages are in Australia and South America. The number of live languages of the world is around 7000 and many of them may not exist in the future. Many researchers are trying to protect endangered languages. This can save lots of values around the world.

27. An endangered language has a lot of speakers. True.....false.....

28. The endangered languages are losing their speakers. True.....false.....
